Exchange Tour to London

6A Chan Pak Kin, Marvis

The trip to England surely gave me a lot of memories, especially going to Oxford. I learnt more about England and how it looks like.

The first place I love and hope to go again is the Harry Potter Exhibition Centre. That's because the props, clothing, models and literally everything in the tour were amazing as the movies. The second reason is that I haven't bought the wand sadly. You can even buy the famous Butter Beer there. Sadly, I was not old enough to drink it. If I can go there again, I'll buy the wand and try the Butter Beer.

The second place that I would like to visit again is The Stonehenge. It is really amazing that how nature can make such an awesome thing. I mean just looking at it can have many questions going inside my head. Just like how it was possible? It is super weird to have such thing in the world.

The third place that impressed me was the Motel that we lived in for the trip. It has classic English breakfast and dinner. One day, we all had fish and chips for dinner. It was as tasty as my Grandma's cooking which was really delicious. Although the room was not that big, it was comfy.

The fourth place that wows me was the school that we had studied for two days. It was St. Gregory the Great Catholic School. They have Science Class and many classes that we don't have. One day, we drew a famous art piece by using checkers and it turned out pretty good. At the end of the day, we made a pencil holder.

These are the places that I would love to go again but it was not so possible because I do not want my Grandma to pay for the tickets again. You know, the tickets were pricey. So, I can only dream about it.

It's breakfast time!

The baguette is so tasty!

Let's learn about aviation!

6A So Tsz Ki Bodhi

This exchange tour gave me an opportunity to go to England to understand more about England's history.

One of my favourite attractions was Stonehenge because the scenery was very beautiful. Many of us took photos there and someone drew pictures of it there. The travelling time was long, so we were a bit exhausted. However, it was one of the best things we have ever done. It was amazing when you got there, seeing this mysterious place. The scenery, the stories and the history, they fascinated you. We were a bit grumpy after a long journey when we arrived. When we left two hours later, we were so unexplainably happy for being there.

My second favourite attractions was Christ Church, Oxford. It was enormous and beautiful. We arrived about 5 minutes before it opened, so it was not very crowded. On our way out, there were many people queuing up! The dining hall served three meals a day. If you want to go there, make sure you visit it between meals, otherwise you won't have the opportunity to see it. We thoroughly enjoyed our tour around the great hall filled with stained glass windows and portraits. The lawns and gardens were lush, green and rather peaceful. The church was under renovations, but different parts of it were still very much accessible. One highlight was that we asked a staff a question and it turned out to be a 15-minutes conversation. She was so passionate about sharing stories about the church and the renovations.

I like this tour very much because it was wonderful. If I have a chance to go to England again, I will definitely visit these two places.

Carlo Chan

6B Chan Ka Lok, Carlo

It was my first time to go on a study tour to the United Kingdom. I benefited a lot from the study tour.

On the first day of the study tour, I made friends with the tour guide and some of my tour mates.

In this study tour, I like going to Stonehenge most because there are boulders being taken shape to be a magical shape and I am interested in them. We took some photos there because the scenery was very nice. Although it was my favourite place, I felt a bit disappointed because there were so many bugs flying around us. We thought that it was disgusting so we 'escaped' from there quickly.

Also, I like going to the Harry Potter Exhibition Centre because I am a big fan of Harry Potter and I like watching the movie series a lot. There were many props that were shown in the movies and I thought they were amazing. At the end of this "adventure", there was a souvenir shop. The souvenirs were so exquisite and I wanted to buy them. However, they were too expensive so I could not afford them.

Last but not least, I like going to Christ Church, Oxford because it was very beautiful. We took some photos there. We looked around there in the afternoon. I thought that it was very solemn. And we had the last dinner of the tour there. The taste of the dishes was quite good but the dessert was too sweet for me, so I didn't finish that dessert.

I love this study tour very much because I have learnt so many new things in the United Kingdom and I made a lot of friends there, too. I miss the United Kingdom very much now! I hope that I can go there again and visit those attractions!

On my birthday, I go to Fun Fun Park with my family. It is in Kowloon. We go there by train.

In the park, we see a lot of park facilities like swings, slides, see-saws, cable cars and others.....

First, we go to the swings. There are a lot of people waiting for the swings. So we have to line up. After ten minutes, it is our turn to play on the swings. It is fun.

Then, we go to the famous long slide in Fun Fun Park. When we are going, I am very excited. Mum says, 'Close your eyes.' Then, I close my eyes. Dad says, 'Open your eyes.' So I open my eyes. Wow! It is a long slide! I run there immediately and scream. After half an hour, Mum says, 'Time to go!' I say, 'I don't want to go!' Then, Mum asks, 'Do you want to get other surprise?' so I follow them.

Macy is lost

Wong Shi Shing 3B

Last Saturday morning, Grandma and Macy went to the park because Macy wanted to play on the swing. She saw a swing and a slide so she felt very excited. She asked, 'Can I play on the swing?' Grandma, answered, 'Yes, you can!'

Macy was playing on the swing when grandma was talking to her friend. After a while, Grandma wanted to go home with Macy but she could not find her. Grandma felt scared and worried.

Grandma tried to find Macy everywhere in the park. Finally, she found Macy on the slide. Macy was sleeping because she felt tired. They hugged each other. When Macy saw her Grandma, she said to Grandma, 'Grandma, I am so sorry. I made you worry about me.' Grandma was happy and they went home together happily.

Subject: A one-day trip in Hong Kong

Dear Gary,

I am so delighted that you are coming to Hong Kong next Saturday! I have a good plan.

On Saturday morning, we will take the MTR to Ocean Park. We will go on the exciting rides and watch an amazing dolphin show! In the afternoon, we will take the ferry to Jumbo Floating Restaurant in Aberdeen. We will eat fresh seafood. The seafood is delicious. At night, we will take the Peak Tram to the Peak. We will look at the night view. We can have a bird's-eye view of Hong Kong there.

We can meet at Ocean Park MTR station at 8:30 a.m. You can take the MTR from Jordan MTR station. It is near your hotel.

Here are the directions: Go out of the hotel and turn left. Go straight ahead. Walk across the road. The MTR station is on your left. It is opposite a department store

I am looking forward to seeing you!

Love,
Sally

Dining in a restaurant

Wong Vicky Garson 4B

Last Sunday, Sofia was starving. She thought she could eat a horse. She went to a restaurant. It was an Italian restaurant called Ivan Restaurant. It was in Kwun Tong. She chose this restaurant because it was very popular.

A waiter came to serve Sofia. 'I'd like to have a spaghetti with tomato sauce, please,' said Sofia.

After eating the food, Sofia was so satisfied. She thought the spaghetti was tasty. 'Can I have the bill, please?' asked Sofia. 'Sure, it is thirty-two dollars and fifty cents,' said the waiter. Sofia felt shocked because she did not have enough money. 'Sorry, I do not have enough money,' cried Sofia.

Finally, she called her mum with her mobile phone. Her mum went to the restaurant by taxi immediately. Sofia felt sad because her mum was angry with her. She learnt that she needed to bring enough money to go out for lunch because she will get into trouble if She does not have enough to pay.

An unforgettable birthday party

5A Cheng Ngo Hang, Oscar

Rainy 22 October, 2019

Last week was my birthday. I had my birthday party in a party room. My parents decorated the place beautifully with some colourful balloons and a birthday banner. Then, Dad gave me a birthday present. I opened the box. It was my favourite robot. I felt overjoyed.

At the beginning of the party, I made a wish. When I was making my wish, I could hear that my family members were singing the birthday song and clapping their hands. Then, I heard some strange noise. 'Oh no!' That's why I opened my eyes. When I opened my eyes, I saw my little sister knock my robot off the table! It was broken!

I could not control my emotions and shouted at her. I felt so angry. My sister was frightened and she cried loudly. She shed a lot of tears. Maybe I looked too scary for her. Dad comforted my sister and Mum looked worried.

I said sorry to my sister at the end. And Dad said to me, 'I can fix the robot for you. Don't worry.' Everyone felt happy again. We ate the birthday cake happily and enjoyed the party very much.

Ways to help save the Earth

Lo Wan Fei, Pinky 5B

It is important to save the Earth. It is because we need to have a clean place to live. The Earth is facing so many problems. We should do something to help the Earth.

Firstly, water pollution is serious in Hong Kong. It is because people throw away too much rubbish at the beach. We should throw rubbish into rubbish bins. And some people take a bath. It wastes a lot of water. We should take a shower instead of a bath. If we take a shower, more water will be saved.

Secondly, air pollution is serious in Hong Kong, too. It is because some people smoke. We should advise people not to smoke. And many cars and factories give out smoke. We should take public transport more often and plant more trees and flowers.

Thirdly, land pollution is serious in Hong Kong. It is because many people throw away too much rubbish. We should put the rubbish in the rubbish bins. And some people throw away their old books, clothes and toys. We should give them away to the poor people or put them into recycle bins.

If all of us can follow the above suggestions, we can protect the Earth. The Earth is our home. It needs our help! Act now !

An Unforgettable Picnic

Tan Sum Ni, Sandy 6A

Last week, the Junior Police Call held an activity. We went to Sai Kung Country Park and had a picnic. When we were walking along the educational track, we saw many animals such as cows, butterflies and horses. Some of my friends chased after the butterflies. They felt very pleased. There were many trees, so the air was fresh. We chatted cheerfully.

After walking for a long time, we were hungry so we had a barbecue. The fire was lit by our teacher, Miss Kwok. When we were roasting food, my friend, Kitty dropped a chicken wing. We all laughed at Kitty. We ate a lot of food such as chicken wings and sausages. We also drank cola. The food was tasty. We ate and talked gladly.

After eating, we felt bored, so we played many exciting games such as hide-and-seek and ball games. Tim, who is good at playing the guitar, is creative. He composed a new song. He played the guitar and sang the song. The song was pleasant to listen to, so we all clapped hands for him. After that, we played hide-and-seek and ball games. We were very elated. We played these games to make our relationship better.

At the end, the rubbish was picked up by us because we did not want to pollute the environment. That was a good action, so Miss Kwok praised us. We also took a photo to commemorate this special day.

This was an unforgettable picnic. I hope I can have more chances to join these activities with my friends and teachers.

A diary

Chan Yee Kee, Joanna 6B

Sunny

21 July 20XX (Sun)

Dear Diary,

This morning I went to Central by ferry after visiting Grandma. On the ferry, I saw a man wearing a black T-shirt. He wore a pair of sunglasses, a black mask and a black hat.

After that, two ladies came over and one woman sat next to the man. They seemed to be chatting, without a care in the world, but the man seemed to be ready to do something unusual.

Next, the two women sat down and talked very happily. They put their bags next to the man and didn't seem to notice anything. At this moment, the suspicious man reached out and slowly took the lady's wallet. I sat opposite to the man so I could see what happened clearly.

At the end, I shouted loudly, 'There is a pickpocket!' Immediately, the two women ran after him and called the police. The suspicious man wanted to escape, but it was too late. The ferry has arrived. The police has successfully caught the thief and brought him to justice.
